

RECORDED

FIRST INTERNATIONAL CONGRESS ON MORAL EDUCATION.

13 Buckingham Street,
W.C.

April 1908.

Dear Miss Ineson

We are instructed by the Executive Committee of the International Congress on Moral Education to invite you to ^{write} make a short ^{paper} communication on

The Co-operation of School & Home

(see p. 3 as marked in the type written list enclosed).

It is thought that your knowledge of this subject would be of special service to the discussions of the Congress. The intention of the Committee is, so far as possible these discussions should fall within the lines indicated in the enclosed draft list. Hence it is that our request for your assistance takes this very definite form. If, however, you would be better satisfied to deal with some other topic we shall be glad to hear from you to that effect.

We remain,

Yours faithfully,

Sophia Odynski.

20. 1. 09.

Dear Miss Mason.

Mrs. Franklin asks me to
say that she did not call today
as she had heard from Miss Allen
that she had not quite decided.
She hopes you do not mind that
she telegraphed to Miss Allen &
received the enclosed answer.

Mrs. Franklin says that unless one

is p 2 one us 548

has a private code there is
nothing that cheaper than the
ordinary Post Office cablegram.

Mr Franklin also wished me
to tell you that your correspondence
with Lord Minto had not been read
at the last Committee meeting, as
so much time was taken up by
the American visitors. The
correspondence was read yesterday
& the Committee liked your letter so
much that they thought it possible

13 p3pmens+8

that you might be willing to
publish it in the Review - "in
answer to a letter received, enquiring
whether the P. N.S.U. recommended
corporal punishment" - or under
a similar heading.

Yours sincerely,

Agnes L. Dyke.

Dearest

I quite understand that the notice
was too short for you to send us your
ideas for the Conference, but I do hope
you will be able to make something out
of these suggestions, as everyone
said the one person to put them
together was you & they are all
very crude at present:

We thought of considering how to

establish an adjustment between the two objects of education - (a) practical success (b) self development.

We thought that there are many people who say, "Yes, schools like Bctales will not help a boy such as a school like Stm." Again people say, "Schools like Stm get them through Examinations & get them into the Army, Civil Service." But when they get in they are not efficient, they are not sufficiently self developed.

We think there might be a good many aspects of this idea taken and we hope that you could give us

i4p3pneus4B

i4p4pneus4B

much help by suggestions on the physical, philosophical, practical, artistic sides - how far an artist should abandon his ideals or fit them to the demands of the moment. - Does a University career help towards business or not?

We hope that you will write a paper & that in it you will see well to embody the valuable letter which you wrote to Lord Heath, & which really must not be kept only in our archives. I will send you the letter in a day or two &, if I may, I should like it back, as it is a

document that I should like to keep.

As the Conference is not till next November I hope you will see your way to give us a paper; you did not give one for last year, & I hope you will do it when you have time & not leave it till the last moment, as in the autumn you are very busy.

I think Miss Allen has as good music and French as the average student. You will be interested to hear that Miss Parish went yesterday to give her lecture to girls at Aldeburgh - W. Harvey's school - & will be going next week to give it

at Miss Linton's school at Southport.

I think we are going to tap a new
source of income & influence in this
country to girls & young women.

Yours with love
